This figure displays a large grid of 100 rows and 80 columns, totaling 8,000 small diagrams. Each diagram is a complex arrangement of black and white symbols, including lines, dots, and geometric shapes, arranged in a way that suggests a binary or digital representation. The diagrams are organized into a grid where each row and column contains a unique sequence of these symbols. The symbols themselves are composed of various geometric elements: straight lines of different lengths and orientations, small circles or dots, and some more complex shapes like triangles and squares. The overall effect is a dense, textured pattern of black and white, with the symbols appearing as small, intricate drawings within each cell of the grid. The grid is labeled with numbers 10 through 80 along the top and 100 through 190 along the left side, indicating the row and column indices for each diagram.
