

BIRDS ON A WIRE

QUILT SIZE 40x48

BLOCKS SET 5x6

BLOCK SIZE 8 INCHES (8.5 INCHES WITH SEAM ALLOWANCES)

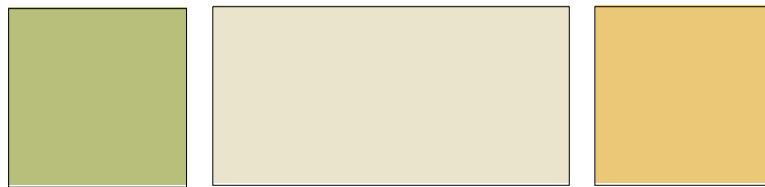

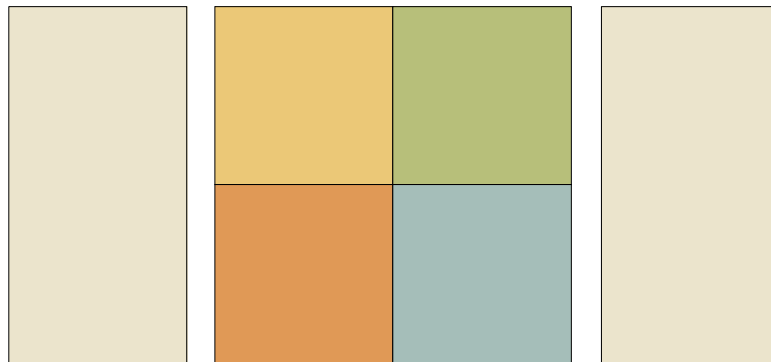

QUILT NOTES:

1. Fussy cut bird fabric to 8.5 inches.
2. The alternate blocks are pieced from strips that are cut 2.5 inches and then sub cut as explained below.

PIECING BLOCKS

1. Sew the multicolored 4 patches together first – you need 15 and I'd use some short strip sets.
2. Take your 2.5 inch white strips and sub cut them into 2.5 x 4.5 inches
3. Sub cut remaining strips into 2.5 inch squares – not counting the 4 patches; you'll need 60 squares (4 squares x 15 blocks). Assemble the blocks as shown below. You'll sew two squares on either side of a background strip for the top and bottom of the block, and then sew a white strip on either side of the 4 patch.
4. Finally, sew these three sections together.
5. If you press toward the dark all your seams should line up nicely.
6. When assembling the top, press all seams toward the focus fabric.

Your finished block should measure 8 inches (8.5 with seam allowances)
