# TIPS

## The „right“ side

outside / right:

inside / wrong:

## Color change

Pick up both loops of the single stitch with the old color but finish the loop with the new color:

## Invisible decrease

Decrease like you normally do, but just use the front loops of both stitches.

## Finishing touches

Pull the remaining thread through all front loops of the last round.  
Then pull it tight until the hole is closed. Prick the center and hide the thread inside:

## GENERAL

My figures are crocheted in continuous spiral rounds, unless stated otherwise.  
The toys should be crocheted as tight as possible, so the stuffing does not shine through.  
I regularly use yarn for hook size 3,5mm – 4mm and a hook size 2,5mm (C/D).  
The colors and yarn in this pattern are just a suggestion. Of course you can use your favorite colors and yarn. That's why I usually don't indicate color numbers or manufacturers.

However: Please be aware not to mix different manufacturers.  
It is important to compare the strength and length of the used yarn.  
Example: Using a 200m/50g and a 130m/50g for one figure will lead to wrong proportions.

I exclusively use synthetic yarn.

The wire will be inserted into the top of the cap, so the tip is flexible.

Both mushrooms will be sewn together onto the lower sides of the stems:
