* To work out the size of the finished article, take the number of stitches and divide it by the count of your fabric (e.g 14,16,18 count aida etc) to get the size in inches. Times it by 2.5 to get centimetres. We have the sizes in inches shown above.

* You should begin at the centre of the pattern. To find the centre of the pattern it is just a matter of locating the arrows at the top and left hand side of the patterns, they are determined by dividing the stitch numbers wide and high in half. Where the two points meet that is the centre.

* To put the pattern together look in the top and bottom corners. The page numbers in brackets () show which page number it joins up to. Page 1 always starts at the top left hand side of the pattern.

* Pattern is for personal use only and is not to be sold,copied or redistributed in any form.Copyright of Artecy Cross Stitch.

* 189 stitches wide by 250 stitches high, 52 colours used
