Mini Backpack Coin Purse Pattern

I've had this Mini Backpack Coin Purse pattern on the back burner, so to speak, for a while and almost completely forgot about it. It was meant to be the companion of The Small Backpack sew along and part of Daisy's Wardrobe if you remember those two past projects from couple months ago. (Links to these projects can be found at the end of this tutorial.)

All I did is scale The Small Backpack pattern and simplify it for you to make this cute miniature-sized coin purse. This project makes a fantastic present, perfect for Christmas stockings, a birthday or as a companion of a larger bag.

You don't need any fancy tools to make this mini backpack, but I have to say you need a little patience because the pieces are small and sometimes fiddly. Just persevere and you'll have a wonderful little gift in only about an hour. What is more, aside from the keyring, you probably have the required materials in your stash already!
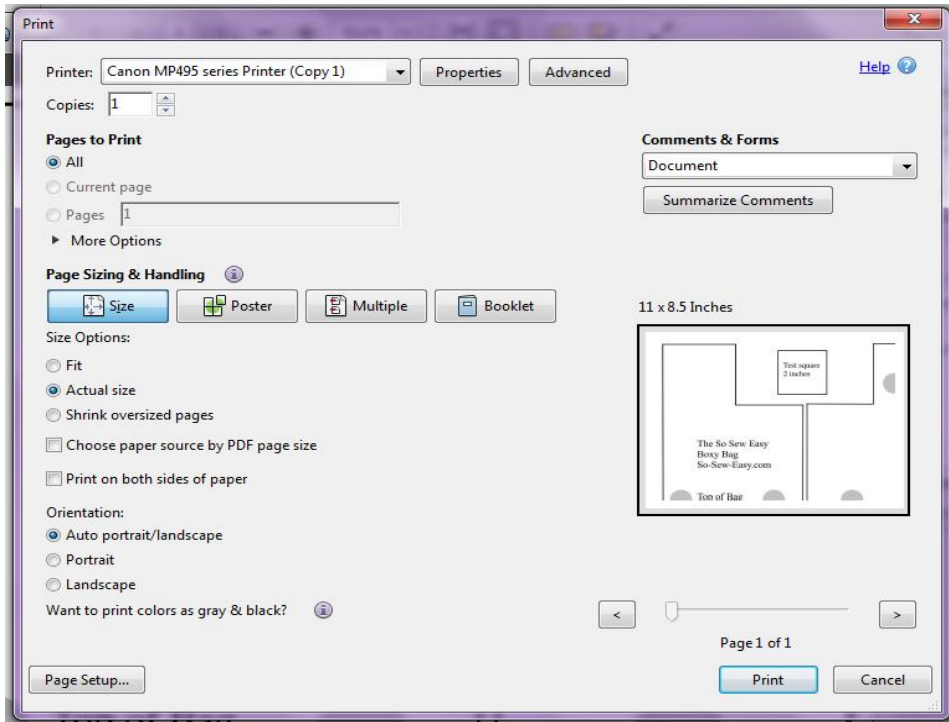

The dimensions are 3.5" X 3" X 2".

To print your PDF pattern

Your pattern pieces come at the end of these instructions. For accurate printing, please make sure you are using the latest version of Adobe Reader. You can download the latest version here if you need to.

Select File → Print and the print dialogue box opens. Under Page Sizing and Handling, select ACTUAL SIZE . Check the preview in the right hand side illustration. Select the page numbers you want to print. You can print the whole document, or just the pattern pieces.

On the edge of the top left page is a box you can use to test your printing. This box should measure 2 inches square. If yours is wildly different you will need to check your printer options to make sure the pages are not being resized.
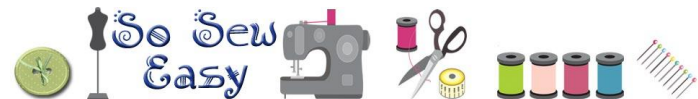

Use the grey guides on the overlap of the sheets to match up the pattern pieces, folding under or cutting off any overlaps, tape together and cut out your pattern pieces.
