INTRODUCTION

Aspect a bit sinister with her pale skin and her haggard eyes, and a little macabre with her voodoo doll , but sweet and childlike . Is for me, no doubt , the most special of my dolls, and I had to develop the pattern of this **Gothic Lolita and her voodoo doll**.

It's made folloween the amigurumi technic in crochet and has a final size of 30 cm (11¹³/₁₆ inch.) I had used cotton yarn and mercerized cotton and the difficult is low-half. The stitches used are: slide stitch, simple crochet, half double crochet, double crochet, knit only in the back loop, increase and decrease.

I designed this doll as a decorative object and i don't recomend it for childs since has little pieces (charms and buttons) and stinging (pins). If you sell your creations, advise your clients of this point; and if the final destinatary is a child, change the charms, buttons and pins with embroidery.

If you have any question contact with me and i will be pleasure to help you:
