Instructions

The model for Phoenix 1 is recommended to be stitched over 1 on 25 count fabric but you may use any count that you are comfortable with. Please use 1 strand of floss or 2 depending on your coverage preference. Charts are recommended to be stitched from page 1 top left to the last page bottom right.

If the chart contains Kreinik 032 #4 (very fine braid) we recommend that you experiment with a couple of options. Start with 1 strand of Kreinik 032 Blending Filament with one strand of white as well as trying the Very Fine Braid to determine the look that you like most.

You may also use the tent stitch or full crosses depending on your preference.

We thank you for purchasing this design and welcome any questions or comments that you may have.

The image displays a large grid of 100x100 cells, organized into a 10x10 grid of 10x10 sub-grids. Each cell contains a small, stylized image of a face or object, rendered in a high-contrast, black and white style. The grid is labeled with numbers 240 to 300 at the top and 860 to 910 on the left side. The images within the cells are arranged in a pattern that suggests a sequence or progression, with some cells containing more complex or detailed images than others. The overall effect is a dense, textured field of small, individual faces or objects.
