# SIMPLE FLOURISH WORKSHEET

Observe the black strokes or curls on the left, then trace over the gray strokes or curls to the right.
After tracing, make as many of your own strokes/curls as you can fit on the page!

The characters below showcase suggestions on how to add flourish to letters with tails. Trace over
each letter twice, then use the space on the right to write your own letters.

Follow the steps below to make flourish laurels. You can modify the laurels as you see fit depending on your projects. Feel free to fill in the leaves!

You can make a simpler but equally elegant laurel branch with two steps:

1

2

Try mimicking the "Hello" artwork below. First, use the guidelines to write "Hello" on the right, then practice without guidelines underneath the original image.
