Mar 21, · How to allocate more RAM for Minecraft Servers: Usually, servers work fine with the stock amount, assuming you don't have too many players. Usages of more memory. Apr 01, · some notes about the tutorial - the reinforced chests, lockers, and storage crates do indeed work with the pipes just fine. However keep in mind that the crates fail to broadcast all of the items available unless each crate has a broadcaster on it, this said it can store a ton of the same item and it seems to fill out when it can but it'll

have residual items in it.
