IMPORTANT INFORMATION:

- In this pattern, I give recommendations on where to modify the beginning of the round. Pay attention! The look and evenness of your product depends on this.
- Your toy size may differ from mine. It depends on the materials, the hook, and the tension of your crocheting.

- All details are crocheted in a spiral, except where specified.
- Yarnart jeans (160m/50g), alize cotton gold (330m/100g), gazal jeans, alize cotton gold hobby yarns have almost the same footage and weight, so these models can be replaced with each other.

Row start marker:

In this pattern, in some details, it is necessary to move the beginning of the row for the evenness of the product, obtaining a certain shape or convenience.

If it is indicated that we need to transfer the marker of the beginning of the row as shown in the photo or described in words, then you need to crochet or dissolve the required number of loops to this place. Set the marker in a new place and continue crocheting according to the pattern. When the marker of the beginning of the row is shifted, the number of loops remains unchanged.

ABBREVIATIONS:

FLG - crochet through front loops only

When crocheting for the front half loops, we grab the half loop that is closer to us. Pay attention to how many loops or rows are crocheted in this way.

BLG - crochet through back loops only

When crocheting for the back half loops, we grab the half loop that is farther from us. Pay attention to how many loops or rows are crocheted in this way.
