When starting FPsc insert the hook where the previous sc was made.
- 2 Insert your hook from front to back on the first side of the stitch,
then bring it back out from back to front on the other side of the stitch.

9 Crochet the **last FPsc** of the round under the marker (from the loop that belongs to the next round).

This FPsc is already sixteenth stitch but total number of stitches in a round remains 15.

It means that in rounds 4-11 we crochet 16 stitches and after that we move marker.

In such a case the start of the next round will be shifted left after each round by one stitch.
